

# The Dessert Junkie™

## BIO

### Operations

Theodore is a versatile professional with a strong technical background and a comprehensive understanding of operational management. He plays a pivotal role at The Dessert Junkie, where he coordinates routine maintenance checks on customer solutions to ensure optimal performance and compliance through regular audits.

In his capacity as a leader, Theodore oversees multiple departments, including Human Resources, Inventory Management, Quality Control, Government Liaison, and Facilities Management. His ability to harmonize these functions fosters an efficient and effective operational environment, enabling the company to meet its goals and deliver exceptional service.

With his multifaceted skill set and proactive approach, Theodore is a valuable asset to any team, consistently driving improvements and enhancing productivity across various facets of the organization.

## THEODORE STREETS

### Bakery/Mobile Truck

In 2017, fueled by a passion to expand the Basket Treats by Alexis Streets brand, Theodore made a bold move by purchasing a dessert truck for his wife, Alexis. Together, they launched The Dessert Junkie, a mobile dessert truck designed to bring their delectable treats to a wider audience beyond their brick-and-mortar bakery.

The Dessert Junkie has quickly gained popularity, attracting a diverse clientele that includes notable organizations such as Microsoft and DC Water, as well as serving at elegant events like weddings and corporate gatherings. With a commitment to quality and creativity, Theodore and Alexis continue to delight customers with their unique and delicious dessert offerings.
